FIG. 1C shows a cross-sectional view of a substrate with a thin layer 404 on top of a patterned layer 402.

A cross-sectional view of a multi-layered structure, labeled 405. It consists of a top layer with diagonal hatching, a middle layer with horizontal hatching, and a bottom layer with diagonal hatching. The middle layer is divided into three rectangular sections by vertical lines.

A cross-sectional view of a multi-layered structure. It consists of a top layer with diagonal hatching, a middle layer with horizontal hatching, and a bottom layer with diagonal hatching. A central vertical feature, possibly a channel or a core, is shown with a hatched pattern. A leader line points from the number 406 to the bottom layer.

406

A cross-sectional view of a multi-layered structure. It features a central core with diagonal hatching, flanked by two side layers with horizontal hatching. The entire assembly is enclosed within a thin outer frame. Label 409 points to the bottom-left corner of the frame, and label 407 points to the bottom-right corner of the frame.
